Sample production checklist

3 A1 plates | 17 parts | About 20h 22m and 305 g total

Name / initials: _____ Run / date: _____

Project: All-Development-Tests-A1-Sliced.3mf

Filament slots: 1 white / 2 wood tan / 3 copper silk / 4 Azurite blue

☐ Opened as a project; saved scale, rotations and settings retained.

Ready = cleaned and usable. Mark Redo when a replacement is needed.

PLATE 1 - WHITE FIXTURES (3 parts)

Estimate: 1h 49m / 42 g Started: _____ Finished: _____

Sample / fixture	Printed	Cleaned	Ready	Redo
Glue-test smooth caul	☐	☐	☐	☐
Seam-test smooth caul	☐	☐	☐	☐
Ribbon show-face jig	☐	☐	☐	☐

PLATE 2 - COPPER M TESTS (6 parts)

Estimate: 10h 13m / 119 g Started: _____ Finished: _____

Sample / fixture	Printed	Cleaned	Ready	Redo
Glue test: core C1	☐	☐	☐	☐
Glue test: core C4	☐	☐	☐	☐
Seam test: core C4	☐	☐	☐	☐
Glue test: continuous veneer + fin carrier	☐	☐	☐	☐
Seam test: upper veneer + fin carrier	☐	☐	☐	☐
Seam test: lower veneer + fin carrier	☐	☐	☐	☐

PLATE 3 - RIBBON COMPARISONS (8 parts)

Estimate: 8h 20m / 144 g Started: _____ Finished: _____

Sample / fixture	Printed	Cleaned	Ready	Redo
A - existing 0.075 mm: tongue	☐	☐	☐	☐
A - existing 0.075 mm: socket	☐	☐	☐	☐
B - refined 0.075 mm: tongue	☐	☐	☐	☐
B - refined 0.075 mm: socket	☐	☐	☐	☐
C - refined 0.050 mm: tongue	☐	☐	☐	☐
C - refined 0.050 mm: socket	☐	☐	☐	☐
D - refined 0.100 mm: tongue	☐	☐	☐	☐
D - refined 0.100 mm: socket	☐	☐	☐	☐

Before lifting ribbon parts: mark A-D and tongue/socket on their backs.

Reprints / print issues: _____

Fit, finish & decision log

Complete dry-fit checks before glue. Use the matching smooth caul for each M sample.

Name / initials: _____ Run / date: _____

VENEER SUPPORT AND CLEANUP

- ☐ Fins and starter shoes stayed attached; veneer was stable during printing.
- ☐ No unacceptable cupping, chatter marks, cracks or visible-face damage.
- ☐ Face cradled in a soft-lined caul while fins, tabs and starter shoe were cut away.
- ☐ Rear remnants trimmed into 0.40 mm recesses; seating pads and locators clean.

GLUE TEST - CONTINUOUS VENEER

- ☐ Core halves seat on a flat reference.
- ☐ Veneer contacts all 3 seating stops.
- ☐ Seats with light pressure; no rocking.

Result: ☐ Good ☐ Adjust ☐ Redo

Notes: _____

SEAM TEST - TWO VENEERS

- ☐ Upper/lower veneers dry-fit on core.
- ☐ Faces level; seam edges undamaged.
- ☐ Reflection matches in grazing light.

Result: ☐ Good ☐ Adjust ☐ Redo

Notes: _____

ADHESIVE / CURE RECORD (if bonded)

Product: _____ Mix / batch: _____

Applied: _____ Full cure due: _____ Checked: _____

☐ Dry fits complete before glue. ☐ Cured per adhesive instructions.

Clamp / liner notes: _____

RIBBON COMPARISON RESULTS

Write G = good, A = adjust, R = reprint. Recheck finish and closure after cure, if bonded.

Variant / nominal gap	Dry closure	Face step	Reflection	After cure
A - existing / 0.075 mm				
B - refined / 0.075 mm				
C - refined / 0.050 mm				
D - refined / 0.100 mm				

Preferred ribbon variant: _____ Gap (mm): _____

M veneer result: ☐ Keep ☐ Revise ☐ Reprint Parts: _____
